

## PURPOSE & GOALS

The purpose of the F.C. Willamette's premier academy program is to provide an intensive soccer training and competitive game experience for committed soccer players of the Willamette Valley Region (Eugene-Springfield, Corvallis, Junction City, Albany, and Salem). Learning to play skillful soccer is no different to developing an expertise in other activities -- *it takes time, patience, quality instruction, and a desire and commitment to reach the highest standards of performance.*

Our primary focus is the long-term, patient, and complete development of each individual team member -- an experience that will foster the opportunity for each participant to compete effectively for scholarship and/or performance recognition by senior high-school age.

## DIRECTOR - TOM ROWNEY

USSF "A" & English F.A. Licenses  
NSCAA Advanced National Diploma  
Former Head Coach, Oregon State University,  
Portland CC, Central Washington Univ.  
Former Assistant, Seattle Storm (APSL), and

## COACHING STAFF

FC Willamette Academy is committed to providing the best coaching staff available in the region. Team coaches will be participating in summer academy training sessions to more fully prepare teams for Fall competition. International coaches --predominantly from the UK -- will also be scheduled to participate.

What makes F.C. Willamette the right program for serious soccer players?

We realize there are a number of soccer training and competitive club opportunities for soccer players. However, we feel that the F.C. Willamette program offers the best soccer development experience for the following reasons:

### Focus on Individual Development

Our focus is on developing the abilities of individual participants to give them a firm grasp of the technical, tactical, mental, and physical demands of the game.

### Quality Coaching During the Optimal Learning Years

The optimal learning years for sports i.e. those that produce the greatest strides in technical accomplishment *start at age 11 and progress through to age 14*. Expert coaching in the advanced tactical aspects of the game are important after the age of 14. FCW is committed to providing the best possible coaching available during the optimal learning years and beyond.

### Sequential and Progressive Training Curriculum

To take full advantage of the optimal learning years training needs to be logically sequential, coordinated and progressive. Our curriculum allows participants to learn quickly, but at a steady and focused pace. The various aspects of the game are presented in such a way so that the learning of one theme follows naturally, providing a solid foundation for the learning of the next theme.

### Establishing High Expectations & Standards

Our expectations and standards with regard to behavior, training, development etc., are extremely high and individually - rather than team-based. All our participants (regardless of preferred playing position) will be required to work hard at training, to spend individual time practicing techniques to proficiency, and to compete physically.

# F.C. Willamette
